- Transflective Coating

Please feel free to consult with a Sales Engineer for additional information or visit our web site.

Flat Panel Monitor

The DTS Series is a high performance 8U, 20.1" LCD display. It offers monitors with high contrast ratios and wide viewing angles. The display is the highest quality in its class with a max resolution of UXGA (1600x 1200).

With only 3" of depth this display will fit the bill for your next rack, panel, in wall or Kiosk project. It can be used in Industrial, Commercial, Broadcast, Home Automation or Military applications. It has options for Capacitive and Resistive 3M Touch with serial / USB interface choices.

The DTS-RM201 has been designed to allow for multiple back panel termination with aRGB, DVI-D, NTSC/Pal, S-Video and CSV, Ports, Audio Input and Output. (See Option S4 on our HD/SD-SDI Options Data Sheet for more details)

The DTS is an all Aluminum construction solution with a Standard Finish of Black Powder Coat and medium texture, but it can be customized to any color or logo.
