

# Series RDKB

(Rack Drawer KeyBoard)

1U Rack Keyboard Solution

## RDKB is the Most Versatile Keyboard Drawer Available

Clearly one of the Rack Industry's Breakthroughs in Keyboard Drawer Design. Starting with the Base Unit, one can use it simply as a storage drawer. Adding a keyboard and trackball wristrest brings it to a legacy keyboard mouse drawer. That is where most designs stop, but not the RDKB. You can add a platform insert for an easy desktop surface in the rack.

The real power of the RDKB is the variety of the Integrated Keyboards. All 7 of our Keyboard Combos fit into this design including our New Sun Certified keyboard and trackball. You would say, "WOW that's Incredible", but we're not finished.

The unit has been design to fit into our 20" Frame which now adds the functionality of our integrated KVM Switches. Then Add a PDD or DTS series Display and you have a 2U (1+1) or 9U (1+8) split configuration. With the versatility of this drawer the possibilities are almost endless.

### Features

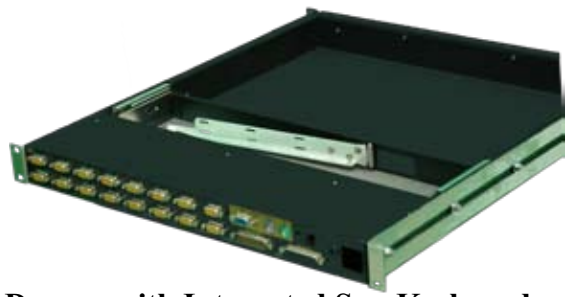

- 1U keyboard / Platform or Storage Drawer
- Built-in Cable Guides
- Built-in Wrist Rest
- Ergonomically Designed
